Burgundy 2006 - reliable producers

22 Jan 2008 by JR

Many producers made a very variable range of wines in 2006 but below is a list of those producers whose wines I have tasted (no no DRC etc) and which seemed relatively consistent and successful.

For much more detailed advice, with information on UK prices and stockists, see tasting notes

for my and Julia's notes based on well-over 1,000 tastes.

See also my overview of how the wines taste to be published in **free for all** tomorrow.

GV stands for good value
