Burgundy 2017 - the guide

Last updated 19 January 2019

So far we have spotted almost 30 instances of wines for which we have more than one tasting note and have decided to retain all of them in order to give you maximum guidance. In some cases the wines will have been tasted on different days - occasionally some weeks apart.

At the suggestion of those contributing to [this thread](#) on our Members' forum, we have repeated last year's pattern of coverage of the latest Burgundy vintage. This entailed publishing this guide to tasting notes on 2017 burgundies that had so far been uploaded, with a 'Last updated' date. We have added tasting articles to the home page only when they are complete and edited. Although don't hesitate to let us know if you spot any errors.

The picture of the village of Vosne from its most famous vineyards was taken in October 2017

soon after grapes had been harvested.
